## How To Care for your Tunic

Care for: Butterfly Tunics, Work Tunics, Performance Tunics

- Hand wash + hang dry
  - Shampoo or dish soap optional
  - Use warm water
  - Wet the entire silk with soap and massage gently
  - If the color starts to run -- not to worry! Add a little vinegar, it's the solvent that helps the dye stick to the silk
  - Rinse until the water runs clear
  - Hang dry -- outside in the sun works best, but make sure to bring them in when they're dry
  - If you choose to iron use a medium setting
  
- Store on hanger in closet
  - Silk is a natural fibre and will break down if left in the sun for long periods of time
  
- Only wear during dance class or performances
